USAS-R Extracts

Reports	Classic Comparison	Definition
EMIS	USAEMS	Used to extract financial data into EMIS-R sequential file format in order for it to be uploaded into the EMIS-R data collector for the Financial reporting period.
GAAP	USAEXP's GAAPEXP option	Used to extract fiscal year activity. The resulting file may then be uploaded into the web based WEBGAAP system.
Positive Pay	AUTOREC Extract option	Allows you to select the extract fields and starting disbursement date, selecting either CSV or Fixed format
