

USAS-R Utilities Options	USAS Classic Programs	Definition
Account Filters	USASEC Account Filters screen	Controls what accounts a user can create, read, update, delete and process transactions against on the system.
Account Change	ACTCHG	Allows you to change expenditure and revenue account codes.
Automatic Reconciliation	AUTOREC set up on .INI file	One time setup for the format of the bank file. Must be completed before using the Auto Reconcile option under Disbursements.
Change Password	N/A	If the user knows their old password they can change their password using the 'change password' link found on the USAS-R Login page or by the 'change password' option under the Utilities Menu.
File Archive	MONTHLYCD/FISCALCD	Not fully implemented yet. Once zipped files are imported (via File Import), Classic's MONTHLYCD/FISCALCD reports will be downloadable through this option.
File Import	N/A	Not fully implemented yet. It will contain the ability to import Classic's MONTHLYCD/FISCALCD in zipped format.
Mass Load	USALOAD's ACCLOAD	Allows district to import cash, expenditure and revenue data into the USAS-R from an outside source.
Job Scheduler	N/A	List of jobs (i.e. reports) generated at a scheduled date and time. Scheduled jobs can be viewed, edited or deleted.
Proration Utility	N/A	Generates a spreadsheet which may be used to assist in calculating premium amounts for Worker's Compensation payments.
Show Profile	USASWEB's Utilities 'Show Profile'	Detailed information about the user account currently logged into the USAS-R application.
